Description

Grand Banks 41 Heritage EU 'Meeuw' with hullnumber 002 - With 2x 425hp diesel engines linked to the Zeus pod system, the 41 Heritage EU can reach top speeds up to 24 knots.

Performance and technology are not the only highlights of the 'Meeuw'. The interior is equally impressive. Because pod drives require a considerably smaller space than traditional propeller shaft drives, the space saved in the engine room can be found in the living rooms. This is not the only advantage of the pod drives; it reduces considerably more noise in your living space and on top of the flybridge and easy maneuvering through the joy-stick with "sky-hook" function.

Therefore the Grand Banks 41 EU 'Meeuw' has it all; comfort, speed and style.
