Description

With more than 1200 examples, the Grand Banks 36 is one of the most popular models built at the time. The long-keeled displacement hull provides stability, which gave the Grand Banks 36 a seaworthy reputation.

Over the years, different layouts have been offered. For example, the Nabataea has a two-cabin layout with a cabin in the back of the boat, where a double and another one-person bed can be found. The advantage of a classic model is that both cabins are equipped with their own toilet. In the ship there are two manual toilets and a shower. The ship's kitchen is equipped with a three-burner gas stove, an oven and a Coolmatic refrigerator.
